Contents of Volume 5

PSYCHOPHYSICS

Direct quantitative judgments of sums and a two-stage model for psychophysical judgments by D. W. Curtis and B. E. Fox, 89

Tests of product and additive scaling axioms by R. F. Fagot and M. Stewart, 117

Individual half-judgment brightness functions by R. F. Fagot and M. R. Stewart, 165

The role of the decision system in sensory and memory experiments using confidence judgments by D. W. Massaro, 270

Electrocutaneous stimulation: Psychometric functions and temporal integration by G. B. Rollman, 289

Paired comparison scaling of reaction potential from simultaneous measurements of GSR and looking time by H. D. Kimmel, C. Boice, and B. T. Leckart, 294

DETECTABILITY

Measurement of low-signal suppression and other parameters of the forced-choice psychometric function by P. L. Emerson, 2

Vibrotactile vigilance: The effects of costs and values on signals by W. G. Davenport, 25

The effects of area and perimeter on detection rates by M. E. Bowen and C. W. Eriksen, 37

Temporal and channel uncertainty in detection: A multiple observation analysis by R. A. Kinchla, 129

Short-term retention during a simultaneous detection task by P. H. Lindsay and D. A. Norman, 201

Idiosyncratic exceptions to the probability-matching decision-rule in visual discrimination by T. Parks and T. Natsoulas, 209

Motivated changes of auditory sensitivity in a simple detection task by C. S. Watson and B. M. Clopton, 281

The non-monotonicity of the psychometric function in recognition memory by P. T. Smith, 329

Detection models: Experimental tests with electrocutaneous stimuli by G. B. Rollman, 377

FORM PERCEPTION

Perception of off-sized objects by W. C. Gogel and R. E. Newton, 7

Consistency between motor activity and perceived direction of rotation by C. A. Burnham, 29

The effects of figural shape on the perception of area by J. P. Smith, 49

Illusion in a three-dimensional Hering figure in relation to viewing distance by V. Di Lollo and A. J. Marshall, 53

"Center-of-gravity" tendencies for fixations and flow patterns by W. Richards and L. Kaufman, 81

Spontaneous fixation tendencies for visual forms by L. Kaufman and W. Richards, 85

Similarity of schematic faces: A test of interdimensional additivity by A. Tversky and D. H. Krantz, 124

The influence of perceptual anchors and visual noise on the vertical-horizontal illusion by D. A. Mankin, 149

Visual form perception: Congruence among spatial configurations by L. S. Aiken and D. R. Brown, 155

A spatial analysis of the discriminability of forms in noise by L. S. Aiken and D. R. Brown, 171

A study of visual temporal size contrast by H. Helson and T. Kozaki, 239

The critical distance of interaction in the Zöllner illusion by G. K. Wallace, 261

Illusions of bent line by F. Restle, 273

Comment on "Eye movements and decrement in the Müller-Lyer illusion" by S. C. McLaughlin, M. J. DeSisto, and M. J. Kelly, Jr., 288

Effect of ramp-like contours upon perceived size and detection threshold by J. P. Thomas and L. Kerr, 381

SPACE PERCEPTION

Depth adjacency in simultaneous contrast by W. C. Gogel and D. H. Mershon, 13

Linear perspective and perceived size by W. P. McDermott, 33

Visual perception of direction when voluntary saccades occur. I. Relation of visual direction of a fixation target extinguished before a saccade to a flash presented during the saccade by L. Matin, E. Matin, and D. G. Pearce, 65

The misperception of rotary motion by J. Cross and J. Cross, 94

Scaling automobile speed by G. Semb, 97

The change from visible to invisible: A study of optical transitions by J. J. Gibson, G. A. Kaplan, H. N. Reynolds, Jr., and K. Wheeler, 113

The influence of haptic size information upon visual judgments of absolute distance by M. Coltheart, 143

Visual beats: Preliminary observations of perceived rate as a function of retinal locus stimulated by R. Karrer and J. Clausen, 163

Eye movement and the Pulfrich effect by B. Kirkwood, A. Ellis, and B. Nicol, 206

Distance discrimination and observer strategy in judgments of relative size by J. A. Williamsen, 211

Binocular rivalry and reciprocal inhibition by R. Fox and F. Rasche, 215

Prismatic displacement and the remembered location of targets by J. M. Kennedy, 218

Distance discrimination in a simulated space environment by R. J. Vincent, B. R. Brown, R. P. Markley, and M. D. Arnoult, 235

Adaptation in the constancy of visual direction measured by a one-trial method by H. Wallach and K. J. Frey, 249

Adaptation to field displacement during head movement unrelated to the constancy of visual direction by H. Wallach, K. J. Frey, and G. Romney, 253

Adaptation to prism-displaced vision: The importance of target-pointing by R. B. Welch, 305

Position constancy and binocular convergence by J. C. Hay and S. Sawyer, 310

Visual capture of haptically judged depth by G. Singer and R. H. Day, 315

Convergence as a cue to depth by W. Richards and J. F. Miller, Jr., 317

Apparent movement and metacontrast: A note on Kahneman's formulation by N. Weisstein and R. L. Growney, 321

RECOGNITION

Recognition of tachistoscopically exposed letters by normals and retardates by J. J. Winters, Jr., and I. R. Gerjuoy, 21

The word-frequency effect and incongruity perception: Methodological artifacts? by G. Kempen, B. Hermans, A. Klinkum, M. Brand, and F. Verhaaren, 161

Variables underlying the recognition of random shapes by H. J. Clark and R. L. Knoll, 221

Hemi-retinal attention under conditions of color rivalry by J. J. Barrell and T. Parks, 246

Orientation of letters and errors in their recognition by P. A. Kolers and D. N. Perkins, 265

Orientation of letters and their speed of recognition by P. A. Kolers and D. N. Perkins, 275
A Bayesian prediction of four-look recognition performance from one-look data by M. E. Doherty and S. M. Keeley, 362

INFORMATION PROCESSING

Two types of short-term visual storage by L. Standing, R. N. Haber, M. Cataldo, and B. D. Sales, 193
Parallel processing in visual same-different decisions by D. C. Donderi and D. Zelnicker, 197
Information transmission in spectral color naming by R. T. Kintz, J. A. Parker, and R. M. Boynton, 241
Visual information processing of sequentially presented inputs: I. Effects of input timing on sub-span storage and retrieval mechanisms by M. S. Mayzner, M. E. Tresselt, N. Tabenkin, R. Didner, and M. S. Helfer, 297
Stimulus information and stimulus interference in bisensory short-term memory by R. L. Dornbush, 303
Perceptual identification and encoding by H. Buschke and R. Lenon, 338
Multidimensional stimulus identification by H. Egeth and R. Pachella, 341
Processing of sequentially presented letters by R. N. Haber and L. S. Nathanson, 359
Precategorical acoustic storage (PAS) by R. G. Crowder and J. Morton, 365
The use of correlated stimulus information in card sorting by J. Morton, 374

HEARING

A comparison of chinchilla auditory evoked response and behavioral response thresholds by D. Henderson, S. Onishi, D. H. Eldredge, and H. Davis, 41
Auditory spatial orientation by D. R. Perrott, L. F. Elfner, and J. L. Homick, 189
Effect of smooth vs step interval gradients upon interval gap detection by I. Pollack, 357

SOMESTHESIS

Kinesthetic orientation judgments during lateral head, body and trunk tilt by V. Hazlewood and G. Singer, 141
Vibrotactile masking: Some spatial and temporal aspects by R. D. Gilson, 176
Vibrotactile masking: Effects of multiple maskers by R. D. Gilson, 181
The effect of texture on tactually perceived length by D. A. Corsini and H. L. Pick, Jr., 352

TASTE

Temperature and pH effects on the relative sweetness of suprathreshold mixtures of dextrose fructose by H. Stone, S. Oliver, and J. Kloehn, 257
An application of the τ scale of taste: Interaction among the four qualities of taste by T. Indow, 347

REACTION TIME

Reaction time as a function of the intensity and probability of occurrence of vibrotractile signals by G. A. Gescheider, J. H. Wright, B. J. Weber, B. M. Kirchner, and E. A. Milligan, 18
Visual form recognition threshold and the psychological refractory period by R. R. Blake and R. Fox, 46
Parallel processing in complex visual discrimination by H. L. Hawkins, 56
Effects of uncertain warning signals on reaction time by R. S. Nickerson, A. M. Collins, and J. Markowitz, 107

ATTENTION AND VIEWING

Responses to incidental stimuli as a function of feedback contingency by G. M. Murch, 10
The influence of stimulus uncertainty and experimental instructions on visual selection by T. T. Faw, J. C. Nunnally, and N. A. Ator, 137
Reliability of looking time by B. T. Leckart and P. Bakan, 313

LANGUAGE

The repeated letter effect in the misspellings of dysgraphics and normals by D. G. MacKay, 102
Decision processes during sentence comprehension: Effects of surface structure on decision times by D. J. Foss and R. H. Lynch, Jr., 145
To speak with an accent: Effects of nasal distortion on stuttering under delayed auditory feedback by D. G. MacKay, 183
The underlying structures of sentences are the primary units of immediate speech processing by T. G. Bever, J. R. Lackner, and R. Kirk, 225

NOUNCING . . .

BEHAVIOR RESEARCH METHODS AND INSTRUMENTATION

Edited by Joseph B. Sidowski
Wisconsin Regional Primate Center
Madison, Wisconsin 53706

Published bi-monthly
Volume 1, September, 1968
through November, 1969

Published in cooperation with the Psychonomic Society, Inc.

IN EARLY ISSUES

Methods & Design	**Partial Analysis of High-Way Factorial Designs** *by Norman H. Anderson* **The Use of Strain Rank Orders in Assessing Equivalence of Techniques** *by Gerald E. McClearn* **Toward a Complete Analysis of GSR Data** *by William F. Prokasy*
Instrumentation & Techniques	**Two Apparatus Assemblies for the Study of Real Movement** *by C. H. Graham and Robert Shlaer* **A Technique of "Spatial" Coding to Program Rapid Temporal Sequences** *by Harry A. MacKay* **The Roots of Territorial Marking in the Mongolian Gerbil** *by D. D. Thiessen*
Computer Technology	**"Basic Black" in Computer Interfaces for Psychological Research** *by William R. Uttal* **A Computer-Compatible Technique for Recording Binary Events in Real Time** *by John R. Platt and Peter C. Senkowski* **An On-Line Computer in a Visual Perception Laboratory** *by Ralph Norman Haber*
Printout	**Services, Products, Briefs, and Catalogs** *by Joseph B. Sidowski*

Subscription: *Institutions, $10; Individuals, $5*

PSYCHONOMIC MONOGRAPH SUPPLEMENTS

Volume 1 and 2 (complete) Volume 3 (in progress)

Subscription: institutions, $10; individuals, $5 per volume

Single issues: $1

Volume 1

1. **Battig, W. F.** Procedural problems in paired-associate learning 1-12
2. **Mayzner, M. S., & Tresselt, M. E.** Tables of single-letter and digram frequency counts for various word-length and letter-position combinations. 13-32
3. **Mayzner, M. S., Tresselt, M. E., & Wolin, B. R.** Tables of trigram frequency counts for various word-length and letter-position combinations. 33-78
4. **Mayzner, M. S., Tresselt, M. E., & Wolin, B. R.** Table of tetragram frequency counts for various word-length and letter-position combinations. 79-142
5. **Mayzner, M. S., Tresselt, M. E., & Wolin, B. R.** Table of pentagram frequency counts for various word-length and letter-position combinations. 145-185
6. **Mandler, J. M.** Behavior changes during overtraining and their effects on reversal and transfer. 187-202
7. **Duncan, C. P., & Wood, G.** Norms for successive word associations. 203-206
8. **Justesen, D. R., Pendleton, R. B., Porter, P. B., & Romney, R.** A new stereotaxic instrument for multiple species research. 207-210
9. **Amster, H., & Keppel, G.** Letter association norms. 211-238
10. **Pishkin, V., & Foster, J. A.** Auditory concept identification system and method of operation. 239-241
11. **Kaufman, A., Baron, A., & Kopp, R. E.** Some effects of instructions on human operant behavior. 243-250
12. **McCain, G.** Partial reinforcement effects following a small number of acquesition trials. 251-270
13. **Perlmuter, L. C.** Effect of CS manipulations on the conditioned eyelid response: Compounding, generalization, the inter-CS-interval, and pre-exposure. 271-286
14. **Tresselt, M. E.** Anchoring and mental set. 287-291
15. **Tresselt, M. E., & Mayzner, M. S.** Normative solution times for a sample of 134 solution words and 378 associated anagrams. 293-298
16. **Lachman, R., & Field, W. H.** A computer algorithm for estimating nonsequential information transmission in recognition and recall. 299-304

Volume 2

17. **Amster, H.** Convergent association norms for ten-year-old children and college age adults. 1-32
18. **Garskof, B. E., Houston, J. P., & Mednick, S. A.** Overlap and direct associative strength norms for 480 word pairs. 33-38
19. **Tresselt, M. E., & Mayzner, M. S.** Anchoring and time-error. 39-43
20. **Beecroft, R. S.** Emotional conditioning. 45-72
21. **Mayzner, M. S., Tresselt, M. E., & Helfer, M. S.** A research strategy for studying certain effects of very fast sequential input rates on the visual system 73-81
22. **Keppel, G.** Fourth California conference on verbal learning and verbal behavior. 83-90
23. **Mayzner, M. S., Tresselt, M. E., & Helfer, M. S.** A provisional model of visual information processing with sequential inputs. 91-108
24. **Olson, R., & Schwartz, R.** Single and multiple solution five-letter words. 105-152
25. **Imai, S., & Garner, W. R.** Structure in perceptual classification. 153-172
26. **Cole, M., Gay, J., & Glick, J.** Some experimental studies of Kpelle quantitative behavior. 173-190
27. **Stevenson, H.** Studies of children's learning: A bibliography 191-218
28. **Shapiro, S. I., & Palermo, D. S.** An atlas of normative free association data. 219-250
29. **Bersted, C. T., Brown, B. R., & Evans, S. H.** A standard set of Vargus 7 patterns at three levels of schematic redundancy. 251-282
30. **Davis, H.** Conditioned suppression: A survey of the literature. 283-291
31. **Wickens, D. D.** Fifth California conference on verbal learning and verbal behavior. 293-299
32. **Butler, D. H., Kamlet, A. S., & Monty, R. A.** A multi-purpose analysis of variance FORTRAN IV computer program 301-319

Volume 3

33. **Nodine, C. F., & Goss, A. E.** Temporal variables in paired-associates learning 1-17
